

Special Issue

Diagnosis and Prognosis of Heart Disease, 2nd Edition

Message from the Guest Editor

Heart disease refers to any problem affecting the heart, such as coronary artery disease, arrhythmia, and heart failure. This Special Issue is dedicated to advancing the diagnoses and prognoses of heart disease. We welcome a diverse range of contributions, including reviews, original research articles, case reports, interesting images, and guidelines, all with the aim of advancing our understanding of heart disease.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
