Kidney Disease: Biomarkers, Diagnosis, and Prognosis: 3rd Edition

Message from the Guest Editor

Chronic kidney disease (CKD) and end-stage renal disease (ESRD) are a worldwide public health problem, with increasing incidence and prevalence, high costs and poor outcomes. To overcome this problem, it is indispensable for us to explore or establish early detection methods/techniques and better treatment options for various kidney diseases such as primary/secondary glomerulonephritis, rapidly progressive glomerulonephritis, nephrotic syndrome, acute kidney injury, diabetic nephropathy/diabetic kidney disease, chronic renal failure, renal fibrosis and polycystic kidney disease.

This Special Issue offers an open-access forum that aims to bring together a collection of original research and review articles addressing novel biomarkers, techniques and approaches that will be valuable and helpful for the diagnosis or analysis of kidney diseases, assessment of kidney disease activity, and renal prognosis.

We have successfully opened the first two volumes of this special issue, and we are currently in the third volume. Everyone is welcome to contribute.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
