Diagnosis and Management of Andrological Diseases

Message from the Guest Editors

Andrology is a relatively new field in medicine that specializes in male sexual and reproductive health. This field is gaining more and more attention since diseases and factors impacting male sexual health and fertility are becoming more common in males of all ages across the globe. Erectile Dysfunction is the most diagnosed sexual dysfunction in elderly populations; Overall, all sexual dysfunctions are more frequently complained about by patients and partners because the higher quality of life encourages men and couples to enjoy sexual wellness even at late ages or in cases of seriously debilitating diseases. However, the age of presentation of all these dysfunctions is declining and sometimes, dysfunction could only be a signal for a future or present hidden disease, such as cardiopathy or diabetes. With this Special Issue, we invite eminent authors to send original articles and reviews exploring the diagnosis and management of medical conditions related to sexual development, infertility, sexual dysfunction, sex hormone action, and other urological issues in males.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
