A Leading Diagnostics Tool: Endoscopy 2022

Message from the Guest Editor

Since its introduction in the mid-19th century, endoscopy has proven an indispensable tool for physicians in almost all medical fields. Serving both medical and surgical patients, in exploratory or interventional settings, endoscopic methods are successfully applied at virtually any age, irrespective of associated pathologies or health status. Yearly advancements in classic techniques, corroborated with innovative new methods to examine tissue and apply curative procedures, have significantly increased life expectancy and general health status worldwide. From gastroenterology or pulmonology, to virtually all surgical branches and even spanning neurology or rheumatology, direct tissue interaction through endoscopy can address all the major medical problems of the 21st century. This Special Issue will focus on novel endoscopic devices, techniques, and procedures developed in recent years for both diagnostic and minimally invasive curative procedures, in a diverse array of medical fields and settings.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.3 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2024).
