

Special Issue

Emerging Technologies in Clinical Diagnostics: From Molecular Testing to Digital Pathology

Message from the Guest Editors

This Special Issue invites original research, reviews, and case studies exploring the technical, clinical, and translational aspects of this convergence, including AI-based image-to-genotype prediction, spatial multi-omics, companion diagnostics, workflow validation, and regulatory considerations. We welcome contributions from pathologists, molecular biologists, bioinformaticians, and diagnostic industry researchers advancing predictive, quantitative, and personalized diagnostics. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.
