# Diagnostics and Management in Oral and Maxillofacial Medicine

### Message from the Guest Editor

The field of oral and maxillofacial medicine demands precision and accuracy in diagnostics. Like in any field of medicine, the diagnostics encompass a comprehensive range of techniques, including clinical examination, radiological imaging, blood work and biopsies when needed. These methods provide crucial insights into the diseases affecting the mouth, jaws and facial structures. An accurate diagnosis lays the foundation for effective management strategies, ranging from conservative treatments to surgical interventions. The evolving techniques in diagnostics continue to enhance our understanding of oral and maxillofacial conditions, enabling earlier detection and improved patient outcomes.

### Guest Editor

Prof. Dr. Mel Mupparapu

Department of Oral Medicine, School of Dental Medicine, University of Pennsylvania, Philadelphia, PA 19104, USA.

### Deadline for manuscript submissions

closed (30 November 2024)

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
