

Special Issue

Advances in the Diagnosis of Inherited/Genetic Diseases

Message from the Guest Editor

This Special Issue delves into the rapidly advancing field of the diagnosis of inherited/genetic diseases, showcasing the latest research and methodologies that are enhancing our ability to identify, classify, and manage genetic disorders. With a focus on precision medicine and molecular diagnostics, this Special Issue explores innovative techniques, clinical applications, and ethical considerations surrounding the diagnosis of inherited/genetic diseases. This Special Issue aims to provide a comprehensive overview of the current state of the art in diagnosing inherited/genetic diseases, from advancements in genetic sequencing technologies to the development of novel biomarkers and diagnostic tools. Researchers, clinicians, and healthcare professionals will find valuable insights into the latest research findings, clinical applications, and future directions in this rapidly evolving field.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
