Recent Developments in the Diagnosis of Gastrointestinal Diseases

Message from the Guest Editors

Gastrointestinal diagnostics has evolved rapidly over the past decade. It is no longer just about confirming disease; it now plays a key role in guiding clinical decisions and improving patient outcomes. Advances in endoscopy, imaging, biomarkers, and digital tools have changed how we detect, monitor, and understand GI conditions. Despite this progress, many important developments still do not receive the attention that they deserve. This Special Issue aims to present 5–8 high-quality, clinically relevant studies that highlight advances making a real difference in GI diagnostics. We welcome original research, reviews, translational studies, and other contributions. The goal is to connect diagnostic innovation with practical clinical care in gastroenterology and hepatology.

Guest Editors

Dr. Nikhitha Mantri

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
