

Special Issue

Diagnosis and Management of Menopausal Symptoms and Role of Hormone Replacement Treatment

Message from the Guest Editor

In this Special Issue, we are looking for reviews and original articles to improve, disseminate, and homogenize the diagnosis and management of menopause, by showing the role of hormonal dosage, ultrasound, and clinical examination in the diagnosis of menopause, especially in the case of premature ovarian failure and benefits and disadvantages of different types of treatment, especially hormonal ones. Therefore, any contributions in this field by reporting experiences around the early diagnosis of menopause and hormonal and non-hormonal replacement treatment or systematic literature reviews on this topic are welcome.

Guest Editor

Dr. Angela Musella

Department of Obstetrics and Gynecology, Sapienza University of Rome, Rome, Italy

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
