

Special Issue

Advance in the Diagnostics and Management of Musculoskeletal Diseases

Message from the Guest Editors

Pathologies of the musculoskeletal system can and must be addressed by many professionals such as orthopedists, traumatologists, physiatrists, physiotherapists, rheumatologists, geriatricians, radiologists, biologists, biotechnologists, bioengineers and other doctors, health professionals, and basic scientists. Their interaction in a multi- and transdisciplinary approach is very important. The aims of this Special Issue are: (1) to summarize through literature reviews, possibly systematic or meta-analyses, the state of the art of the most interesting and current problems of the musculoskeletal system; (2) offer the most current and innovative research through original articles. Both basic science and clinical papers are welcome as long as they concern diagnostic or therapeutic aspects of the musculoskeletal system.

Guest Editors

Prof. Dr. Massimiliano Leigheb

Orthopaedics and Traumatology Unit, "Maggiore della carità" Hospital, Department of Health Sciences, University of Piemonte Orientale (UPO), Via Solaroli 17, 28100 Novara, Italy

Dr. Alessandro de Sire

Department of Medical and Surgical Sciences, University Magna Graecia di Catanzaro, 88100 Catanzaro, Italy

Prof. Dr. Elisabetta Ferraro

Department of Biology, University of Pisa, Pisa, Italy

Deadline for manuscript submissions

closed (30 June 2022)

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
