# Advances in the Diagnosis and Management of Head and Neck Disease

### Message from the Guest Editor

Head and neck disease (HND) management is incredibly challenging. Despite innovations in radiation oncology and immunotherapy introduction in the metastatic setting, prognosis in recurrent metastatic head and neck cancer is dismal. A proper classification and diagnosis of HND and the selection of adequate biomarkers, both predictive and prognostic, might change the future of HND management, which is currently dated, not personalized, and based on agnostic approaches.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
