Special Issue

Expanding Horizons in Fascial Diagnostics and Interventions

Message from the Guest Editors

We are excited to invite you to contribute to a Special Issue focusing on cutting-edge applications of ultrasound imaging and interventions for fascial pathologies. Fascial tissues play a critical role in musculoskeletal function, and their intricate anatomy and dynamic nature present unique diagnostic and therapeutic challenges.

This Special Issue aims to showcase innovative ultrasound-guided techniques that are transforming our ability to visualize, characterize, and treat fascial disorders. Covering the fields of radiology, physical medicine, and regenerative therapeutics, in this Special Issue, we aim to catalyze multidisciplinary collaborations and accelerate progress in this rapidly evolving area of musculoskeletal care. We encourage submissions from clinicians, scientists, and engineers working at the forefront of new applications of fascial ultrasound. We look forward to receiving your high-quality contributions that will help expand the boundaries of fascial diagnostics and interventions, and we encourage you to reach out with any questions you may have.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
