

Special Issue

Interesting Images in Obstetrics and Gynecology

Message from the Guest Editors

Obstetrics and gynecology represent a large field; for this reason, we propose this Special Issue in order to present very rare cases with interesting clinical images and to acknowledge the importance of imaging. Our aim is to facilitate and enhance the quality of visual information communicated to our readers. In selected cases, one image can be crucial for the diagnosis of different pathologies in obstetrics and gynecology. We propose this Special Issue to obtain interesting images in the field of different maternal and fetal pathologies, gynecologic and gynecologic oncology, rare cases, and new imaging methods in obstetrics and gynecology.
