# **Special Issue**

# Advances in the Diagnosis and Management of Otopharyngeal Diseases

# Message from the Guest Editor

The head and neck area includes a significant number of structures that are eminent for nutrition, communication and respiration. The orofacial area is responsible for food intake and speech, followed by the orpharyngeal part that is important for swallowing and finally the larynx acting as the key structure for a free airway and voice production. Infectious diseases, acute or chronic. malformations or neoplasias affect significantly patients' quality of life and lead to the need for a multidisciplinary diagnosis, treatment and finally rehabilitation. Research in this area of expertise is essential to fill gaps in knowledge and deliver complete and comprehensive patient care. The purpose of this Special Issue is to investigate the current approaches and latest innovations to the diagnosis, management, and rehabilitation of patients with oropharyngeal diseases. Original research and review articles, case studies, reflective essays, commentaries, and research briefs are welcomed.

# **About the Journal**

# Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

# Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

## **Author Benefits**

# **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

## **Journal Rank:**

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

# **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
