Hematologic Tumors of the Bone: From Diagnosis to Prognosis

Message from the Guest Editor

Hematologic tumors of the bone refer to blood-related cancers that either originate in the bone marrow or secondarily affect the bones. These tumors arise from hematopoietic tissues, primarily located in the bone marrow, and include multiple myeloma, leukemias, and lymphomas. This Special Issue aims to highlight emerging topics in the field, spanning from classic morphology to modern molecular biology, as well as new diagnostic and prognostic tools, including those addressing novel drugs and targeted therapies.

Diagnostics is a well-known international, peer-reviewed, and open access journal by MDPI, ranked in Q1 (Medicine, General and Internal) and Q2 (Internal Medicine), with an IF of 3.3 (2024). I invite you to submit your scientific contributions related to bone hematologic malignancies.

Guest Editor

Dr. Fabio Stagno

Hematology Unit, Department of Human Pathology in Adulthood and Childhood "Gaetano Barresi", University of Messina, 98125 Messina, Italy

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
