

## Special Issue

# Advances in the Diagnosis of Nervous System Diseases—2nd Edition

### Message from the Guest Editor

The diagnosis of neurological diseases is one of the most difficult challenges for medical professionals, due to the complexity of the nervous system. Currently, more than 600 diseases have been identified, including neurodegenerative diseases such as Alzheimer's disease and Parkinson's disease, cerebrovascular diseases and others, such as multiple sclerosis, migraines, neuroinfections and neuromuscular diseases. According to the World Health Organization report, nervous system diseases affect up to one billion people worldwide. Several methods, such as magnetic resonance imaging, CSF biomarkers, and genetic and neurophysiological tests, provide useful information for the diagnosis of neurological diseases. In this Special Issue entitled "Advances in the Diagnosis of Nervous System Disorders", we invite investigators to contribute original research or review articles that focus on the role of tests or biomarkers (molecular, neuroimaging, genetic and neurophysiological) in the diagnosis of nervous system diseases.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
