

Special Issue

Diagnosis and Management of Postural Disorders

Message from the Guest Editor

This Special Issue is aimed as being a platform for discussion on diagnostics, as well as screening and prognosis, of people suffering from spinal deformities, or those at risk of such, from the perspective of the person. We are interested in diagnosing spinal deformities but also in diagnosing peoples' lived experiences related to spinal deformities. As spinal deformities we understand scoliosis of various types, affecting people throughout their lifespan, as well as other medical and subjective problems related to the spine, such as kyphosis and so-called "bad posture" or "faulty posture". Diagnosis and diagnostics may be related to those suffering but also to their significant others. Therefore, papers reporting diagnostic imaging and laboratory testing, but also measures of subjective health status such as inventories and questionnaires, as well as qualitative studies related to issues such as lived experiences, are anticipated, welcomed and awaited.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
