

Special Issue

Advances in Cardiovascular CT Imaging

Message from the Guest Editor

The aim of this special issue is to collect articles in the field of cardiovascular CT imaging, with a focus on:

- novel applications /technology (Photon-Counting, quantitative imaging, multienergy spectral imaging, AI, machine learning)
- advances in diagnosis / novel diseases
- cardiovascular prevention and risk stratification
- cardiovascular inflammation/infection
- congenital and structural heart disease, minimal invasive intervention planning

The following types of articles will be considered:

- original research articles
- reviews of current hot-topics in cardiac CT
- technical reports (of novel technology or imaging techniques) as short communication
- case reports and case series
