

## Special Issue

# Advances in Diagnosis and Management of Gastrointestinal and Hepato-Bilio-Pancreatic Disorders

### Message from the Guest Editors

Gastrointestinal and hepato-bilio-pancreatic disorders, including benign and malignant oncological diseases, acute and chronic intestinal ailments, and exotoxin-related syndromes, can present a relevant diagnostic challenge. Issues in radiological diagnosis stem from complex anatomy of the abdominal region and difficult differential diagnosis among diseases at different prognoses and treatments but with a similar presentation at standard imaging modalities. Significant progress in imaging methods, such as imaging fusion, advanced segmentation, texture analysis, and artificial intelligence, have been recently reported and are the object of major research to extract as much information as possible from the available imaging data. In this issue, we aim to gather the latest available evidence on any advanced and innovative imaging approach, aiming at diagnosis, staging or treatment guidance of gastrointestinal and hepato-bilio-pancreatic disorders. Manuscripts describing any types of imaging, i.e., US, CT, MRI, scintigraphy or PET can be submitted to this Special Issue.

### Guest Editors

Dr. Francesco Fiz

Nuclear Medicine Unit, E.O. Ospedali Galliera, Genoa, Italy

Prof. Dr. Luca Viganò

1. Hepatobiliary Unit, Department of Minimally Invasive General and Oncologic Surgery, Humanitas Gavazzeni University Hospital, Bergamo, Italy

2. Department of Biomedical Sciences, Humanitas University, Pieve Emanuele, Milano, Italy

### Deadline for manuscript submissions

closed (30 June 2024)

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer  
Department of Clinical Physiology, Nuclear Medicine & PET National  
University Hospital, Rigshospitalet, University of Copenhagen,  
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
