# **Special Issue**

# **Advances in Pain Imaging**

### Message from the Guest Editor

Diagnosing the causes of pain is crucial for its treatment, and understanding the mechanism by which pain occurs helps in the development of new methods for pain management. It is essential to use various imaging techniques for pain diagnosis and pain-related research. Imaging technology has significantly advanced over the last few decades. Advances in imaging technology have made more precise diagnoses of the causes of pain possible and helped improve the therapeutic outcomes of pain by providing appropriate treatments based on precise diagnoses. In addition, advances in imaging technology have deepened our understanding of the mechanisms involved in the development of pain. In this Special Issue, "Advances in Pain Imaging", we will discuss how pain imaging technology has advanced, how it is being used in the clinical field, and how it is being applied to research. I hope that this Special Issue will provide useful information on pain imaging to various clinicians and researchers and create a platform for further discussions.

### About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

#### Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### **Author Benefits**

### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
