Diagnosis and Factors Associated with Perinatal Health

Message from the Guest Editors

The perinatal period is an extremely sensitive time for both the mother and the fetus. During pregnancy, birth, and postpartum, a wide number of variables can impact maternal and neonatal health and disease. Adverse variables during the perinatal period can be assessed through a medical and/or psychological perspective.

In this respect, the use of technology, apps, electronic devices, and psychological measures can contribute to the screening, assessment, and/or diagnosis of a range of situations for both the mother and the fetus, along with the partner.

This Special Issue aims to disseminate studies regarding the perinatal period and the use of tools that support the assessment and diagnosis of women, partners, and neonates during this crucial time.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
