

Special Issue

Moving beyond Current Diagnosis of Sleep-Disordered Breathing

Message from the Guest Editors

We are pleased to invite you to contribute the Special Issue *Moving beyond Current Diagnosis of Sleep-Disordered Breathing*, to be published in *Diagnostics*. Sleep-disordered breathing (SDB) is a huge global burden for affected individuals and society as a whole. This Special Issue aims to seek novel pathways, technological solutions, and analytical approaches for more accurate monitoring, detection, and quantification of SDB to replace the current outdated, expensive, and labor-intensive clinical practices. Both original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- The use of machine learning to analyze sleep data and estimate the risk for symptoms and adverse health consequences;
- Novel pathways to monitor and diagnose SDB;
- Wearable technologies for long-term monitoring of SDB and diagnosis;
- Novel subjective and objective methods to estimate the effect of SDB on patient well-being.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
