

Special Issue

Cardiac Imaging in Heart Failure

Message from the Guest Editor

This Special Issue showcases the pivotal role of cardiac imaging in the diagnosis, management, and prognosis of heart failure. Featuring the latest advancements in imaging techniques and their clinical applications, this Special Issue provides a comprehensive overview of how imaging modalities are transforming our understanding and treatment of this complex condition. This Special Issue delves into the nuances of cardiac imaging in heart failure, highlighting the strengths and limitations of various imaging modalities and their impact on patient care. From echocardiography and computed tomography (CT) to magnetic resonance imaging (MRI) and positron emission tomography (PET) CT, researchers and clinicians will gain insights into the latest research findings, clinical practices, and emerging trends in this critical area of cardiovascular medicine.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
