

Special Issue

Diagnosis and Management of Metabolic Bone Diseases: 2nd Edition

Message from the Guest Editors

Diagnostics is launching a Special Issue focused on bone disorders in inborn errors of metabolism (inherited metabolic diseases).

On behalf of the Editorial Office, I would like to invite you to contribute your research paper, review article, interesting case reports, and descriptions of the utility of various diagnostic and therapeutic methods for bone involvement in inherited metabolic diseases for peer review and possible publication.

Young researchers are welcome to present their achievements, and pediatricians are welcome to share their experience and insights from their clinical practice. All are invited to present newly identified bone metabolic disorders identified by next-generation sequencing. We encourage researchers to describe the advantages of new diagnostic methods as well as the pitfalls of common diagnostic methods. Also, reports of long-term follow-up of patients with inherited bone metabolic disorders, as well as their management and care ensured by multidisciplinary teams of physicians and other health providers, will be appreciated.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2
(Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
