Special Issue

Diagnosis and Management of Thrombotic Disorders

Message from the Guest Editors

Thrombotic disorders, encompassing venous thromboembolism, arterial thrombosis (e.g., stroke, myocardial infarction), and complex thrombotic conditions in special populations (e.g., cancer patients, pregnant women, and individuals with renal failure). represent a leading cause of global morbidity and mortality. Despite advances in multidisciplinary guidelines, critical challenges persist in relation to risk stratification, early warning, individualized therapy, and long-term management. This Special Issue will focus on enhancing diagnosis and management strategies to transform thrombosis care from empirical practice to data-driven paradigms. This Special Issue will bridge the translational gap between foundational research and clinical practice, fostering safer, more effective thromboprophylaxis and therapy. Submissions of original research, reviews, and clinical trials are encouraged, as we work toward developing standardized, precise, and intelligent techniques for thrombosis diagnosis and management.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
