

## Special Issue

# Advances in Imaging Diagnosis of Dermatology

### Message from the Guest Editor

This Special Issue aims to provide an overview of the most used techniques in dermatologic imaging to illustrate the specific technical properties and their peculiar advantages to be found not only in the field of non-invasive diagnostics, but also in the follow-up and treatment monitoring. This issue aims to cover the most employed tools ranging from dermoscopy, reflectance confocal microscopy, and optical coherence tomography to the most recently introduced tools, such as skin ultrasound, like line-field confocal optical coherence tomography, high-resolution dermoscopy, ultra high-resolution ultrasound, and fluorescence dermoscopy. For each technique, all the clinical conditions in which a useful application is found will be described.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
