The Use of Portable Devices in Emergency Medicine, Second Edition

Message from the Guest Editor

Rapid advances in portable devices have revolutionized the field of emergency medicine. From smartphones to wearables, these devices offer immense potential for enhancing patient care, diagnostic accuracy, emergency medicine education, and medical information management. This Special Issue, 'The Use of Portable Devices in Emergency Medicine, Second Edition', aims to explore the latest research, developments, and applications of portable devices in the dynamic domain of medicine. It will delve into the diverse aspects of portable device utilization in the emergency medicine setting, from remote triage and real-time monitoring to point-of-care testing and telemedicine. By gathering interdisciplinary research, innovative methodologies, and case studies, this Special Issue seeks to provide insights into the potential benefits, challenges, and ethical considerations associated with the integration of mobile devices into emergency medicine.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
