

Topical Collection

Reviews on Artificial Intelligence and Natural Language Processing in Medical Diagnostics

Message from the Collection Editor

Artificial intelligence and natural language processing have demonstrated great potential to improve the health outcomes of patients and transform healthcare services. This Topical Collection aims to publish high-quality review articles within the field of Artificial Intelligence and Natural Language Processing in Medical Diagnostics. We warmly welcome researchers in relevant areas to contribute up-to-date, full-length, comprehensive reviews highlighting the latest developments in their research fields.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
