

Special Issue

Clinical Presentation, Management and Prognosis of Infective Endocarditis

Message from the Guest Editors

Infective endocarditis (IE) remains a complex cardiovascular pathology, with its multifaceted clinical presentation demanding acute diagnostic acumen. We invite to this Special Issue which offers a consolidated exploration into the intricacies of IE's clinical features, state-of-the-art management, and prognosis determinants. We invite seasoned clinicians to share insights into the diverse symptomatology of IE, emphasizing cardinal signs, potential complications, and differential diagnoses. Contributions dissecting contemporary diagnostic modalities, evaluating their efficacy in clinical settings, will be particularly appreciated. Additionally, we encourage submissions on the evolving landscape of therapeutic interventions, ranging from nuanced antibiotic stewardship to surgical strategies, highlighting best practices and evidence-based outcomes. Crucially, a focused discussion on prognostic indicators, long-term outcomes, and patient follow-up in IE is sought. This issue aims to foster a collegial exchange of knowledge, refining the approach to IE care and fostering groundbreaking research in the field.

Guest Editors

Dr. Arian Arjomandi Rad

Medical Sciences Division, University of Oxford, Oxford, UK

Prof. Dr. Alexander Weymann

Department of Cardiothoracic, Transplant and Vascular Surgery,
Hannover Medical School, Hannover, Germany

Prof. Dr. Thanos Athanasiou

Department of Surgery and Cancer, Imperial College London, London,
UK

Deadline for manuscript submissions

30 September 2026

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2026).
