

## Special Issue

# Clinical and Surgical Anatomy of the Temporal Bone: Imaging, Pathology, and Multidisciplinary Perspectives

### Message from the Guest Editor

I am pleased to announce an interesting Special Issue dedicated to the temporal bone. The petrous part of the temporal bone represents one of the most complex anatomical regions of the human skull, housing critical neurovascular structures including the facial nerve, vestibulocochlear nerve, internal carotid artery, and the entire peripheral auditory and vestibular apparatus. Its intricate architecture makes it a convergence point for multiple clinical specialties—otolaryngology, neurosurgery, neuroradiology, and neurology—yet a comprehensive, anatomy-focused Special Issue remains lacking in the current literature. We therefore welcome high-quality original research and review articles that further advance our understanding of this anatomically and clinically significant region.

### Guest Editor

Dr. Alexandra Diana Vrapciu

Division of Anatomy, Faculty of Dentistry, Carol Davila University of Medicine and Pharmacy, 050474 Bucharest, Romania

### Deadline for manuscript submissions

31 March 2027

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2026).
