Advances in the Diagnosis and Management of Musculoskeletal Tumors

Message from the Guest Editor

The diagnosis and management of musculoskeletal tumors remain challenging due to the large number of histologies and variety of radiological findings. Over the past 50 years, new diagnostic devices have been developed and implemented, and physicians have continuously strived to improve the accuracy of diagnosis and the management of musculoskeletal tumors. This Special Issue invites original papers and review articles that explore new techniques in diagnostic devices, surgery, and radiotherapy. Submissions on chemotherapy and immunotherapy aimed at improving survival in patients with musculoskeletal tumors, including metastatic bone tumors, are also encouraged. Both basic and clinical research are welcome. I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
