Challenges Related to the Oral Cavity, Head and Neck: From Diagnosis to Therapy

Message from the Guest Editors

The intricacies of disorders of the oral cavity, head, and neck present clinicians with significant challenges, necessitating a multidisciplinary approach to achieve accurate diagnosis and effective therapeutic strategies. This Special Issue aims to explore the spectrum of complex cases encountered in these anatomical regions, encompassing diverse etiologies, diagnostic dilemmas, and therapeutic interventions. By delving into nuanced clinical scenarios, this collection seeks to foster a deeper understanding of the complexities that are inherent to managing conditions ranging from oral cancers and maxillofacial trauma to rare pathologies and treatment-resistant diseases. Through case presentations, innovative diagnostic techniques, therapeutic modalities, and outcome assessments, this Special Issue endeavors to advance our knowledge and enhance clinical practice regarding disorders of the oral cavity, head, neck. Contributions from clinicians, researchers, and allied healthcare professionals are invited, in order to enrich this exploration and contribute to our collective effort to address the formidable challenges posed by these interlinked clinical scenarios.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
