

## Special Issue

# New Insights in Thyroid Diagnostics 2nd Edition

### Message from the Guest Editor

Thyroid pathologies are considered the most frequent endocrine disorders and thyroid carcinoma the most frequent endocrine malignant disease. The polymorphism of the symptoms in benign thyroid pathology and the dramatic increase of the incidence of thyroid nodules underline the necessity of continuous research in the field, for better and appropriate diagnosis and therapies. This Special Issue on “New insights in Thyroid Diagnostics” will focus on novel strategies of clinical and imaging diagnostics, together with serological, histological, genetic, and molecular analysis, which tend to be more and more present in daily practice. Furthermore, the results of studies regarding the diagnostics of modified quality of life in thyroid patients are welcome, together with papers focusing on multiple malignancies associated with thyroid disease, benign or malignant. Researchers are encouraged to publish their work in this field, both with respect to benign thyroid diseases and thyroid carcinomas, including original articles or systematic reviews.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
