

## Special Issue

# Recent Advances in Pediatric Laboratory Medicine

### Message from the Guest Editor

The field of pediatric laboratory medicine has undergone remarkable advancements in recent times, leading to significant improvements in the diagnosis and management of pediatric health conditions. One significant breakthrough has been the development of highly sensitive and specific diagnostic tests, enabling the earlier detection and more accurate identification of diseases. In particular, the emergence of next-generation sequencing techniques has revolutionized genetic testing, providing clinicians with powerful tools to identify genetic disorders and inform personalized treatment plans. Additionally, advancements in biomarker research have led to the discovery of new markers used to monitor disease progression and responses to therapy. These recent advances not only enhance our understanding of pediatric diseases but also contribute to improved patient outcomes and the overall quality of pediatric healthcare.

### Guest Editor

Dr. Jasna Leniček-Krleža

1. Department of Laboratory Diagnostics, Children's Hospital Zagreb, 10000 Zagreb, Croatia
2. Department of Nursing, Catholic University of Croatia, Ilica 244, 10000 Zagreb, Croatia

### Deadline for manuscript submissions

closed (30 June 2025)

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer  
Department of Clinical Physiology, Nuclear Medicine & PET National  
University Hospital, Rigshospitalet, University of Copenhagen,  
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
