Diagnostic Imaging of Autoimmune Diseases

Message from the Guest Editor

Imaging plays an important role in the early detection, management, and prognosis of autoimmune diseases. Autoimmune diseases often present with complex and overlapping symptoms, making imaging (such as MRI, CT, ultrasound, and PET) crucial for differentiating between diseases and assessing the extent of organ involvement. In recent years, developments in artificial intelligence and novel contrast agents have significantly enhanced imaging precision and diagnostic accuracy. These innovations are paving the way for earlier interventions and improved patient outcomes in autoimmune disease management. This Special Issue will present readers with the latest advancements in the diagnostic imaging of autoimmune diseases. Original articles, review papers, and interesting images are welcome. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
