New Insight in Gastric Cancer Diagnosis and Treatment

Message from the Guest Editor

Gastric cancer (GC) poses a significant global health problem, being consistently one of the leading causes of cancer-related deaths around the world. Its tendency to go unnoticed until it reaches advanced stages emphasizes the critical need for extensive research in this area. Factors like *Helicobacter pylori* infection and dietary choices play a role in its widespread occurrence. Moreover, in recent years, GC-associated genetic-hereditary syndromes have been better outlined. Despite improvements in diagnosis and advancements in cancer treatments, the persistently low survival rates associated with GC highlight the importance of a comprehensive approach that includes prevention, early detection, and targeted treatment. The aim of this current Special Issue is to collect the most recent knowledge in diagnosis and therapy, with special regards to original research articles concerning novel biomarkers in oncological treatment and innovative techniques in surgery. Furthermore, advances in ancillary technique in pathology are welcome.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
