

Special Issue

Pathogenesis, Diagnosis and Prognosis of Cardiovascular Diseases

Message from the Guest Editor

mortality. To address this issue, a deeper understanding of their pathogenesis, as well as advancements in diagnostic tools and prognostic models, is critical for improving patient outcomes. This Special Issue, titled “Pathogenesis, Diagnosis and Prognosis of Cardiovascular Diseases”, will provide a platform for showcasing the latest research at the intersection of molecular mechanisms, clinical diagnosis, and outcome prediction. This Special Issue will focus on elucidating the biological pathways that underlie the development and progression of CVDs, while also exploring novel diagnostic methods, such as advanced imaging and biomarker discovery, that enhance early detection and intervention. Furthermore, innovative prognostic models and personalized therapeutic strategies will be highlighted, offering insights into the future of cardiovascular disease management.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
