

Special Issue

Gynecological Cancer: Diagnosis and Screening

Message from the Guest Editors

This upcoming Special Issue of *Pathology and Molecular Diagnostics* focuses on the critical topic of gynecological cancer, encompassing cutting-edge advancements in diagnosis and screening. This issue aims to bring together leading research and clinical insights to enhance our understanding and improve outcomes in gynecological oncology. Key themes explored in this Special Issue include the following:

- **Innovative Diagnostic Techniques:** exploration of novel imaging technologies, biomarkers, and molecular diagnostics that offer greater accuracy and earlier detection of gynecological cancers.
- **Screening Strategies:** evaluation of current screening methods, such as Pap smears and HPV testing, alongside emerging approaches like liquid biopsy and genetic screening.
- **Epidemiological Insights:** analysis of global incidence and prevalence patterns, risk factors, and the impact of socio-economic determinants on gynecological cancer outcomes.
- **Personalized Medicine:** advances in personalized screening and diagnosis tailored to individual genetic profiles and risk factors, aiming to enhance precision and efficacy.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
