## Diagnosis of Hepatitis

### Message from the Guest Editor

Hepatitis diagnosis is crucial in ensuring timely treatment and the prevention of disease progression. Advances in diagnostic techniques, including serological testing, imaging modalities, and genetic analysis, have significantly improved the accuracy and efficiency of hepatitis detection. The ability to differentiate between its acute and chronic forms, as well as to identify specific viral strains, is paramount in tailoring therapeutic strategies. This Special Issue explores the latest advancements in hepatitis diagnosis, providing a comprehensive overview of current practices and emerging trends in the field.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
