Focus on Children's Oral Health: Advances in Pediatric Dentistry and Imaging Assessments

Message from the Guest Editor

Oral healthcare plays a crucial role in overall health and quality of life, and it is vital in addressing the unique challenges and considerations faced by diverse pediatric patient populations. It will focus on gathering research and insights related to the effective management of oral healthcare for individuals with varying needs, including, but not limited to, special needs patients, medically compromised patients, and individuals from culturally diverse backgrounds. It seeks to explore evidence-based strategies, best practices, and innovative approaches that can improve oral healthcare outcomes and promote equitable access to quality care. The scope of this Special Issue encompasses a wide range of topics, such as preventive measures, diagnostic techniques, treatment modalities, patient communication, interdisciplinary collaboration, and oral health promotion. We strongly encourage contributions from researchers and clinicians that address the existing gaps, identify barriers, propose practical solutions, and facilitate the development of patient-centered approaches.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
