

## Special Issue

# Biomarkers for Detection and Prognosis in Urologic Oncology

### Message from the Guest Editor

Urological tumors account for approximately 25% of all human cancers [1]. One of the biggest challenges in clinical practice is to determine the best therapeutic decision for each case, thus avoiding unnecessary interventions. As part of emerging efforts to improve both detection and management decision making, a number of new biomarkers have recently been developed, largely through advancements in imaging and genomic technologies. In this Special Issue of “Biomarkers for Detection and Prognosis of Urological Cancers”, we invite investigators to contribute with original research or review articles focusing on the role of biomarkers—either molecular, imaging or genetic—that can be used for the diagnosis and monitoring of urological cancers and can help clinicians to provide a more targeted treatment for each patient in the era of precision oncology.

### Guest Editor

Dr. Cristian I. Surcel

Department of Urology and Renal Transplantation, Fundeni Clinical Institute, “Carol Davila” University of Medicine and Pharmacy, 020021 Bucharest, Romania

### Deadline for manuscript submissions

closed (31 March 2023)

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer  
Department of Clinical Physiology, Nuclear Medicine & PET National  
University Hospital, Rigshospitalet, University of Copenhagen,  
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
