

## Special Issue

# Diagnosis and Management of Urologic Disease

### Message from the Guest Editor

The aim of this Special Issue is to provide information on the current and potential use of precision medicine in geriatric urology. Geriatric urology encompasses a multifactorial clinical syndrome with an extremely complicated clinical course, and is very diverse with respect to clinical patterns. Early diagnosis is of crucial importance for the final clinical outcome. Previous studies have not identified a biomarker with sufficient sensitivity and specificity for the diagnosis of geriatric urologic disease. Therefore, we are currently collecting clinical data and molecular biomarkers using “omics” technologies, with sufficient diagnostic specificity and sensitivity to be able to predict the clinical course of the disease and patient response to therapy. All analyses consider the precise medicine and patient engagement practice in order to provide readers with a useful tool for everyday clinical practice. We hope to provide readers with an interesting tool for use in everyday clinical practice and invite urology experts to share their experiences.

### Guest Editor

Prof. Dr. Kehung Tsui

Department of Urology, Chang Gung Memorial Hospital, 5 Fu-Shng street, Kweshan, Taoyuan 333, Taiwan

### Deadline for manuscript submissions

closed (30 September 2021)

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer  
Department of Clinical Physiology, Nuclear Medicine & PET National  
University Hospital, Rigshospitalet, University of Copenhagen,  
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
