

Special Issue

Advanced Diagnosis and Integrated Management of Bone and Soft Tissue Tumors

Message from the Guest Editor

This Special Issue will showcase cutting-edge research and clinical insights in the multidisciplinary field of bone and soft tissue tumor diagnosis and management, covering both benign and malignant tumors, such as osteosarcoma, chondrosarcoma, Ewing's sarcoma, and liposarcoma. The main focus areas will include 1) novel diagnostic techniques, such as advanced imaging, molecular/genomic profiling, and AI-assisted pathological diagnosis; 2) unique case reports highlighting rare cases, diagnostic challenges, or innovative treatment approaches; and 3) translational research linking laboratory findings with clinical practice, prognostic markers, and personalized treatment strategies. We welcome original research, systematic reviews, clinical trials, and case studies, with an emphasis on multidisciplinary collaboration (orthopedic oncology, radiology, pathology, and medical oncology).

Guest Editor

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
