Advances in Oral and Maxillofacial Tumors and Salivary Gland Diseases

Message from the Guest Editor

Oral and maxillofacial tumors, alongside salivary gland diseases, present complex challenges in clinical oncology and head and neck surgery. Recent years have witnessed significant shifts in the diagnostic paradigms and surgical management of these diverse pathologies, ranging from benign salivary gland lesions to highly aggressive malignancies like squamous cell carcinoma and ameloblastic carcinoma. This Special Issue, "Advances in Oral and Maxillofacial Tumors and Salivary Gland Diseases," aims to highlight the latest clinical and translational breakthroughs in the field. We invite original research and comprehensive reviews exploring novel prognostic biomarkers, advanced imaging techniques, precision surgical interventions (such as intraoperative facial nerve monitoring) and personalized therapeutic strategies. Ultimately, this collection seeks to foster multidisciplinary collaboration and provide evidence-based insights to improve early detection, minimize surgical complications and enhance the overall prognosis and quality of life for patients.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
