

Special Issue

Diagnosis, Prognosis, and Management of Cardiovascular Disease

Message from the Guest Editors

Cardiovascular disease is the main cause of death worldwide and consequently a massive burden for healthcare systems. Despite the improvements in diagnosis and treatment in the last few decades, variable risk factors are still inevitably leading to increased morbidity and mortality. This is why proper and early diagnosis as well as management can provide much better outcomes for these patients. This Special Issue should focus on basic, as well as novel and uninvestigated, diagnostic and therapeutic modalities. Research papers focused on diagnostics (echocardiography, cardiac magnetic resonance, CT coronary angiography, SPECT, and PET), risk stratification in patients with cardiovascular disease, and management (both interventional and non-interventional) are strongly encouraged. I hope that this Special Issue will provide some new insights into the diagnosis, prognosis, and treatment of cardiovascular disease. Authors can submit communications, reviews, and original articles covering any aspect of this topic.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
