Advances in Diagnosis and Management of Liver Tumors

Message from the Guest Editor

Liver tumors, including primary malignancies like hepatocellular carcinoma (HCC) and metastatic lesions, pose significant challenges in clinical practice. This Special Issue aims to highlight groundbreaking developments in liver tumor diagnosis. Enhanced imaging modalities, such as high-resolution MRI and advanced CT scans, have vastly improved early detection accuracy. The discovery of novel biomarkers is also transforming screening strategies, facilitating personalized approaches that allow for earlier diagnosis and improved prognostication. Additionally, the integration of artificial intelligence (AI) and machine learning in imaging analysis is revolutionizing diagnostics, allowing for more precise identification and characterization of tumors. We invite authors to submit their research, reviews, and case studies that contribute to this dynamic field.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
