Emerging and Neglected Infectious Diseases: Diagnostic Pitfalls and Approaches

Message from the Guest Editor

Infectious diseases present a significant burden on public health and the economic stability of societies all over the world. For centuries, they have been among the leading causes of death and disability worldwide and have presented growing challenges to health security and human progress. In recent decades, remarkable new infectious agents affecting humans have emerged, a number of which are neglected or zoonotic, so finding their diagnostic approaches unavoidably become delayed. Constant awareness and pursuance of effective strategies for diagnosing infectious diseases remain crucial. Currently, various diagnostic methods have been developed for ENIDs, but a great challenge is efficiency, user-friendliness and high accuracy. In this direction, diagnostic challenges and solutions to overcome them are necessary and fundamental.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
