## Digital Innovation in Salivary Diagnostics for Oral and Systemic Health

### Message from the Guest Editor

Saliva is increasingly recognized as a powerful, noninvasive biofluid with significant potential for the early detection and monitoring of both oral and systemic diseases. This Special Issue aims to highlight the expanding role of saliva in precision diagnostics, focusing on its clinical utility across a spectrum of conditions, including dental caries, periodontal disease, oral cancer, diabetes, cardiovascular disorders, and chronic kidney disease. We invite original research articles, reviews, and case studies that explore emerging salivary biomarkers, innovative biosensing technologies for real-time monitoring, and the integration of artificial intelligence (AI) for the analysis of complex salivary data. Given its ease of collection, low cost, and patient-friendly nature, saliva represents a transformative medium for accessible and routine health monitoring. This Special Issue seeks to showcase interdisciplinary advances that position saliva-based diagnostics at the forefront of personalized and preventive medicine, with the ultimate goal of enhancing early detection, improving patient outcomes, and contributing to the future of smart, data-driven healthcare.

## About the Journal

## Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

### Editor-in-Chief

#### Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

## **Author Benefits**

## High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
