Decision-Making in the Emergency Department

Message from the Guest Editors

Decision-making in the emergency department (ED) is fraught with challenges due to many factors: rapidly evolving patient conditions, life-threatening illnesses masquerading as minor ailments, and the constant balancing act of triaging to maximize utilization of ED time and space. The aim of this Special Issue is to update our knowledge and highlight state-of-the-art research in improving the decision-making process in EDs. We welcome any paper regarding topics such as (but not limited to) early diagnosis, rapid response, risk stratification, and decision making in the ED. Potential topics of this Special Issue include:

- Decision-making algorithms in the emergency department;
- Risk stratification and prognostic decision-making tools;
- Early diagnosis or point-of-care diagnostics in the emergency department.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.3 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2024).
