

## Special Issue

# Diagnosis and Management of Meningitis—2nd Edition

### Message from the Guest Editor

This Special Issue will provide scholars with a platform to explore the latest advancements in diagnosing and treating meningitis. It presents a comprehensive overview of meningitis types, symptoms, diagnostic methods, and management strategies, emphasizing the importance of prompt diagnoses and aggressive treatments to minimize long-term neurological sequelae. It will also highlight innovative diagnostic tools and therapies that are improving outcomes for patients with meningitis. We will focus on articles covering a range of topics, including novel diagnostic approaches, utilizing our available diagnostic armamentarium for surveillance, vaccine implementation, antimicrobial sensitivity/resistance patterns, and novel treatment, as well as management approaches. It is, therefore, my pleasure to invite submissions of high-quality research-based or review papers related to the aforementioned topics to create a timely and highly relevant collection of articles tackling this pertinent public health problem.

### Guest Editor

Prof. Dr. Georgina Tzanakaki

National Meningitis Reference Laboratory, Department of Public Health Policy, School of Public Health, University of West Attica, Athens, Greece

### Deadline for manuscript submissions

31 December 2025

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer  
Department of Clinical Physiology, Nuclear Medicine & PET National  
University Hospital, Rigshospitalet, University of Copenhagen,  
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
